---

La collezione Lando Gingerbread, disegnata da Paola Navone, riscopre la forza suggestiva del legno, rimodellando la tradizione attraverso la ricerca di abbinamenti inconsueti di forme, materiali, stili e tradizioni. Il design e' ispirato alla fantasiosa architettura caraibica, dove le costruzioni in stile "gingerbread" si modellano attraverso torrette, balaustre e cornici da fiaba. I profili di sedie, tavole e panchette sono ricordi di forme classiche che hanno perso la terza dimensione, come mobili di cartone in una casa di bambola. Il legno rovere massello, tagliato a sega e non verniciato, si accosta alla ceramica tradizionale bassanese, alla pergamena bianca quasi traslucida, all'acciaio. L'effetto e' contemporaneo, inatteso e quasi straniante.

The Lando Gingerbread collection, designed by Paola Navone, rediscovers the fascinating strength of wood and reshapes traditions through the search of unusual combinations of shapes, materials and styles. The design is inspired by imaginative Caribbean architecture, where the "gingerbread" style buildings are formed of towers, balustrades and cornices with a fairy tale air. The chairs, tables and benches recall classic forms that have lost their third dimension, like cardboard furniture in a dolls' house. Solid oak, sawed and unvarnished, is matched with traditional Bassano pottery, white almost translucent parchment and steel. The effect is modern, unexpected and almost alien.
